

The Guild for Architecture and Industrial Design
within the Student Union, Faculty of Engineering at Lund University

To write a motion

A motion is written by following simple guidelines, these are made up by:

- a clear **headline**
- **name** of the mover
- a short **body**
 - background to the issue
 - short argument
- **Conclusion** with **proposals for decision making** expressed clearly, through one or more "to-sentences"

Example of motion:

Motion to the 2018 fall semester assembly of the A-guild

Regarding: Swimming pool for the A guild

Mover: Full name

I can't understand why the A-Guild does not have a swimming pool. I find this unfathomable; especially given the fact how many warm and beautiful days there are during the semester when bathing and having fun is the only thing you want (during the nollning for instance). A swimming pool would cost a few hundred thousand, I therefor don't find money as a problem. The pool could be placed either on the roof of the A house, on the courtyard or in *gropen* between the A house and IKDC. I think this would benefit both the team spirit and the health of the A-guild students. And besides, who would refuse a cocktail or two by the pool during lunch breaks?

Plea: I propose the guild assembly to decide;

to buy a swimming pool for the use of the A-guild.

A motion to a guild assembly (fall assembly or spring assembly) is sent:

- at least 10 days before the assembly to styrelsen@asektionen.se

A motion to the guild board is sent:

- to styrelsen@asektionen.se and is handled on the upcoming board meeting.
